## mezzanine transform your existing space with the best quality mezzanine

**bid** mezzanine floors are the most cost effective way of utilizing the often excessive, unused head height for increased floor space. the floors are installed with the minimum of impact on your business helping you to expand into this space, in many cases removing the need to go through the expense and disruption of relocating your business. floors can be used for a variety of purposes including storage, office accommodation to production.

- tongue & groove particle board decking
- perimeter handrail & toeplate
- secondary deck beams
- main support beams
- main support columns

## quality

the standard specification of **bid** mezzanine flooring is unmatched in the industry but, thanks to the accuracy and efficiency of the service, the cost is often more competitive than inferior installations. each floor includes bespoke design, the latest in lightweight steel structures, high quality powder-coated ancillaries, fully integrated edge protection systems and moisture resistant decking as standard. all mezzanines are designed to meet bre digest 437 requirements and all relevant british standards resulting in floors that are widely acknowledged to be the ultimate in terms of design, quality and finish.

## project management

each project is coordinated and controlled by one project manager ensuring that clients have a single point of contact for all technical, engineering and installation issues. all project managers are also fully qualified structural engineers. whether your new floor is small and straight-forward or multi-tiered and complex, our attention to detail and commitment to support you is the same.

office mezzanine

## space efficiency = business efficiency

whether your need is retail, office or manufacturing, the installation of mezzanine flooring can increase general storage space and improve operating efficiency. at **bid** we are able to facilitate this seamlessly, with the minimum of disruption to your business.

## professional design & installation

tailored to meet your individual needs your new mezzanine floor will be quickly installed by our team of skilled and experienced fitters whatever your requirements we will deliver the most cost effective solution to any space problem, without the cost or hassle of moving

storage mezzanine
