storage the most versatile storage solutions on the planet

bid specialise in the design, supply and installation of storage systems to meet the ever changing needs of today's storage environment. our extensive range can be configured to meet your needs exactly in terms of load, volume, weight, accessibility, handling requirements and space utilisation.

from a single bay, to a fully purpose built integrated storage system, **bid** work closely with our clients to select the correct storage solution to maximise the most of your storage space with the minimum of disruption to your business.

with our extensive knowledge and experience and design expertise, plus a huge range of options and accessories, we can specify the most suitable cost-effective storage solution to meet your exact requirements.

intelligent storage

our storage systems are designed to provide clients with effective, efficient storage and retrieval. we believe that a well thought out storage scheme really can add a whole new dimension to any business.

Intelligent design

your storage space, from an alcove to an empty warehouse, is a blank canvas to us. utilising our experience and leading edge technology we can plan out the most cost effective storage solution for your business.

successfully managing a warehouse operation means maximising & maintaining the potential of the available storage space. our experienced team of project managers & design engineers can help you do just that.
