INTRODUCING PHOENIX SAFE COMPANY

Phoenix Safe Company is one of the oldest UK manufacturers of safes and security products and can trace its history back to Liverpool in 1799.

In 1986, when Phoenix Safe Co was formed the aim was to design and manufacture advanced fire resistant safes to protect the new wealth of data information being produced by computers. The vital importance and catastrophic consequences of the loss of this information demanded a new approach to fire protection.

We are now a world leader, manufacturing and distributing a wide range of state of the art safes to suit all requirements, ranging from residential to commercial security and fire protection.

We specialise in vital records protection for both paper and computer media. All of our fire resistant files and safes carry a life-time after-the-fire replacement warranty.

We have an extensive range of traditional security safes also, designed to protect cash and valuables from £1,000 to £1m as well as a comprehensive range of Steel Storage products.

We welcome the opportunity to help you secure your most important items!

TEST SPECIFICATIONS

FIRE TEST STANDARDS – The fire test standards below require that the critical maximum temperature of the following media cannot be exceeded (a) Paper Records – 175°C (b) Digital Media – 120°C (c) Computer Data – 52°C.

NT FIRE 017-60 Paper – Requires safe to be heated to 945°C for 1 hour. The maximum temperature inside the cabinet shall not exceed 175°C.

NT FIRE 017-90 Paper – Requires safe to be heated to 1050°C for 90 minutes. The maximum temperature inside the cabinet shall not exceed 175°C.

NT FIRE 017-120 Dis – Requires safe to be heated to 1090°C for 2 hours. The maximum temperature inside the cabinet shall not exceed 52°C.

NT FIRE 017-120 Paper – Requires safe to be heated to 1090°C for 2 hours. The maximum temperature inside the cabinet shall not exceed 175°C.

EN1047-120 Dis – Requires safe to be heated to over 1100°C for 2 hours. Internal temperature shall not exceed 52°C.

EN1143-1 – The European norm for resistance to burglary attack with various resistance grades up to Grade 10.

EN14450-S1 – The European norm for resistance to burglary attack. Grade S1.

EN14450-S2 – The European norm for resistance to burglary attack. Grade S2.

EN14470-1 Fire safety storage cabinets – Part 1: Safety storage cabinets for flammable liquids.

BS EN 1634-1 – Withstanding fire attack means not allowing flames or hot gases to pass.

LFS 30P, LFS 60P-EN 15659 – Light Fire Resistance where the internal temperature will not exceed 175°C.

MTC DIP 120-60DM (Grade B) – Digital Media fire protection where the internal temperature will not exceed 120°C.

BS 7558:1992 Specification for gun cabinets
Requirements for the construction and security of cabinets intended for the secure storage of firearms and ammunition.

WARRANTY/INSURANCE

All phoenix Fire safes come with a free lifetime 'after the fire' replacement warranty and a full 2 year onsite materials and labour warranty. A lifetime warranty applies to KS Series Key Stores. All letter boxes have a 5 year guarantee. A 1 year onsite materials and labour warranty applies to the UF Series. A 2 year onsite materials and labour warranty applies to SS1160/80, SS0990, HS Series. All other products have a 1 year back to base warranty.

Insurance cover against burglary attack will vary due to location and circumstances. Please check with your underwriter.

Fire Safes – Design and innovation

"60% of businesses that suffer a fire go out of business in the first year"

FIRE RESISTANCE

Patented Styronite F insulation provides great fire/heat resistance. Fire protection from 30 minutes to 2 hours for paper, digital media & data. Tested to highest European standards.

PAINT FINISH

Highest quality urethan antirust primer coated. Durable acrylic urethane leather-tone finish makes the surface more smooth and bright, preventing scratches and providing extreme durability. Top quality galvanized steel plate and antirust durable paint keep our safes rust free. Every safe is cleaned rigorously to remove any foreign particles before painting.

CONSTRUCTION

Double wall construction. Drop tested for impact resistance from 9.1m. Recessed double curvature frames provide virtually airtight construction. Ready prepared for anchoring to the floor. Water resistant seals and intumescent stripping.

LOCKING

High security dimple & double bitted key locking, electronic locking, touchscreen keypad & fingerprint locking systems. Advanced multipoint locking systems to securely seal doors. Anti-Drill steel plating and Re-locking devices. Recessed double curvature frames working as dead bolts.

AUTOMATIC SLAM SHUT LOCKING

Handle snaps into position automatically when the door is closed.

OPTIONS

Blank or cut keys, dual locking, advanced electronic & fingerprint locking. Fully adjustable shelves, media drawers, filing cradles & internal coffer. Internal LED lighting. Data Protection Inserts for computer media & data tapes.

WARRANTY & GDPR COMPLIANCE

2 Year manufacturers warranty and a free Lifetime 'After-the-Fire' replacement warranty. Maintain GDPR Compliance by keeping vital records secure and protected.

**The above features are applicable to different Fire Safes within the Phoenix range.*

LS6010 SERIES SPECTRUM PLUS

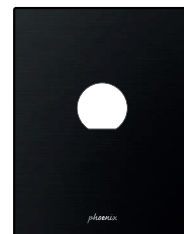

LS6012F

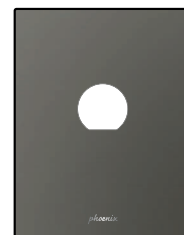

LS6011F

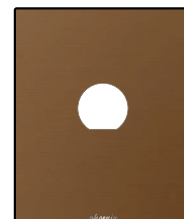

3 COLOUR OPTIONS

Titanium Black (B)

Metallic Silver (S)

Champagne Gold (G)

THE PHOENIX SPECTRUM PLUS LS6010 SERIES is an ultra-modern safe designed to protect documents and valuables from fire and theft. The Spectrum Plus's effortlessly attractive design is available with a range of coloured, brushed stainless steel door panels, allowing you to choose a colour to complement any interior.

- **FIRE PROTECTION (PAPER)** – Tested to the Swedish NT Fire 017-60 Paper (LS6011F), NT Fire 017-90 Paper (LS6012F) providing up to 90 minutes fire protection for paper documents.
- **FIRE PROTECTION (DIGITAL MEDIA)** – Tested to MTC DIP120-60DM fire test standard, providing 60 minutes fire protection for digital media, DVD's, USB's, memory sticks and hard drives.
- **LOCKING** – Fitted with an advanced high security touchscreen keypad & fingerprint lock with clear LED display, dual control, multi-user control, hidden code and scrambled code that can be programmed as standard with up to 32 fingerprints.
- **SECURITY PROTECTION** – Recommended overnight cash risk of £2,000 or £20,000 valuables*.
- **FIXING** – Ready prepared for floor fixing with fixing bolts for concrete supplied.
- **DROP TEST** – Drop tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building or the collapse of the building.
- **LIGHTING** – Fitted with a bright LED interior light so the contents can be easily seen.
- **SPECIAL FEATURES** – Supplied with four internal key hooks, a pull out drawer and a height adjustable shelf.
- **COLOUR** – The Spectrum is finished in a high quality scratch resistant dark grey, with interchangeable Stainless Steel door panels available in 3 colours.

LS7010 SERIES NEXT PLUS LUXURY SAFE

LS7013FAA

LS7013FCC

LS7013FAC

LS7013FCA

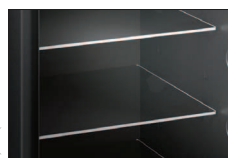

THE PHOENIX NEXT PLUS SERIES is a masterpiece in Design, Security and Fire Protection. Available in a range of stylish colour options using Graphite Grey & Cream Top & Bottom door panels. It also features a slide and hide lock panel for extra security. The safe is ideal for modern office and homes when the need for discreet protection is required.

- **FIRE PROTECTION (PAPER)** – Tested to the International NT Fire 017-90 Paper standard, providing 90 minutes fire protection for paper documents.
- **SECURITY PROTECTION** – The safe is recommended for an overnight cash risk of £3,000 or £30,000 valuables*.
- **LOCKING** – Fitted with an advanced high security fingerprint and touch panel lock. The lock can store up to 32 different fingerprints. The clear LED display also makes operating the lock extremely easy with a 4-16 digit user code. To further enhance security, the lock also features tamper lockout, internal alarm, dual control, hidden code and unlimited scrambled code and low battery indication as standard.
- **FIXING** – Ready prepared for floor fixing with fixing bolts for concrete supplied.
- **FITTINGS** – Fitted with luxury drawers using pull out slide rails. Supplied with two 5mm thick tempered-glass height adjustable shelves.
- **CONSTRUCTION** – The safe is locked with 4 way locking bolts, each bolt 32mm in diameter for extra strength. Strategic points like the lock and bolts are further protected by thick Anti-Drill steel plate and Re-locking device.
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **COLOUR/FINISH** – Stylish door panels available in Anthracite Grey & Cream. Body finished in a high gloss black.

FS1920 SERIES FIRE COMMANDER PRO

FS1922E

FS1923

FS1921

THE PHOENIX FS1920 FIRE COMMANDER PRO series offers unrivalled protection for documents, data (with FSDPI03) and cash.

- **FIRE PROTECTION (PAPER)** – Tested to the European LFS 60P Fire protection standard (EN15659 ECB.S Certified) giving 60 minutes fire protection for paper documents.
- **APPROVALS** – UK Police approved (Secured by Design scheme) and the Association of Insurance Surveyors (Ais).
- **SECURITY PROTECTION** – Tested to the prestigious European S2 Security Standard (EN14450 – ECB.S Certified) giving cash cover of £4,000 or valuables cover of £40,000.
- **FIXING** – Ready prepared for floor fixing with fixing bolts for concrete supplied.
- **LOCKING** – **FS1920K** – Fitted with high security double bitted VdS class I key lock. **FS1920E** – Fitted with high security VdS class II electronic lock with dual control, master code & time delay.
- **SPECIAL FEATURES** – Supplied with height adjustable shelves that also includes hanging rails for lateral files as standard. Optional pull out cradles also available.
- **COLOUR** – Finished in a high quality scratch resistant white paint RAL9003.
- **GDPR** – Maintain GDPR Compliance at home or in the office by keeping your company's vital and important records secure and protected.

Suitable for storage of controlled drugs whose active ingredients do not exceed 500 grams.

FS2250 SERIES WORLD CLASS VERTICAL FIRE FILE

FS2254E

FS2252K

Data protection insert (FSDPI08)

FS2250F

THE PHOENIX WORLD CLASS VERTICAL FIRE FILE series offers unrivalled protection for documents and data in a stylish modern filing cabinet format. Ultra lightweight insulation materials mean the cabinet can be used on most floors without the need for supporting.

- **FIRE PROTECTION (PAPER) – FS2250 SERIES** – 90 minutes fire protection for paper documents.
- **FIRE PROTECTION (DATA)** – 90 to 120 minutes fire protection for Computer tapes and data if optional FSDPI08 is used.
- **FIRE PROTECTION (DIGITAL MEDIA)** – Tested to MTC DIP120-60DM fire test standard, providing 60 minutes fire protection for digital media, USB's, memory sticks and hard drives.
- **WATER RESISTANCE** – Water resistant seals prevent water damage to contents when cabinet is subjected to sprinkler systems or fire hoses.***
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **LOCKING** – **FS2250K** – Fitted with a high quality key lock supplied with two keys. **FS2250E** – Fitted with an advanced high security electronic lock with clear LED display, dual control, hidden code & scrambled code that can be programmed as standard.
- **FS2250F** – Fitted with an advanced high security touchscreen keypad & fingerprint lock with clear LED display, battery Indicator, internal alarm, multi user codes, dual mode, hidden code and scrambled code that can be programmed as standard with up to 32 fingerprints.
- **CAPACITY** – Able to accommodate Foolscap, A4 and A5 files on width adjustable rails. Compression plates are also supplied to maximise useable space.
- **COLOUR** – Finished in a high quality scratch resistant white paint RAL9003.
- **GDPR** – Maintain GDPR Compliance at home or in the office by keeping your company's vital and important records secure and protected.

BS1280 SERIES BATTERY TITAN

Our cabinets are suitable for storing and recharging lithium-ion batteries

BS1281K

BS1283E

BS1282F

The **Battery Titan Series** has been designed for use in domestic and commercial environments for the safe storage and charging of Lithium-Ion batteries. Rechargeable batteries present many risks including thermal runaway caused by a rise in temperature, impact damage or faulty manufacture. This can result in the battery igniting and causing a fire explosion that can be extremely difficult to extinguish and cause major damage to life and buildings.

- **Suitable FOR** – The storage and charging of the following battery types – power tools, garden tools, e-bikes/scooters, drones, laptop, mobile phone, plus your standard household rechargeable batteries AAA, AA, Type C, Type D, 9V.
- **FIRE PROTECTION** – Tested and certified to the international NT Fire 017-60 standard.
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **CONSTRUCTION** – Double wall construction with internal fill of our patented Styronite F insulation, provide a cabinet of great strength and fire/heat resistance.
- **CHARGING** – Safely charge your Lithium batteries using the fitted power points – **BS1281**, 1 Double PDU, 2 sockets, **BS1282**, 1 Double PDU, 2 sockets, **BS1283**, 2 Double PDUs, 4 sockets.
- **LOCKING** – **BS1280K** – Fitted with a high-quality key lock supplied with two keys. **BS1280E** – Fitted with an advanced high security electronic lock with scrambled code as standard. **BS1280F** – Fitted with an advanced high security touchscreen keypad & fingerprint lock with clear LED display, internal alarm, dual control, hidden code and scrambled code that can be programmed as standard with up to 32 fingerprints.
- **WARNING LABELS** – Fitted with warning label in accordance with ISO 3864 and ISO 7010, as well as the European directive 92/58/EEC
- **SECURITY PROTECTION** – The safe is recommended for an overnight cash risk of £2,000 or £20,000 valuables*.
- **FIXING** – Ready prepared for floor fixing, with fixing bolts for concrete floors supplied.
- **FEATURES** – All models are supplied with four internal key hooks and a pull-out drawer. Models BS1282 & BS1283 also benefit from a height adjustable shelf.
- **COLOUR** – Finished in a high-quality scratch resistant white paint RAL9003.

Optional Feature

- **BRIGHT INTERNAL LED LIGHT** – Illuminates the interior of the safe (BS1280E only).

Optional LED Light
(BS1280E only)

BS1930 SERIES BATTERY COMMANDER

OPTIONAL FEATURES

THE BATTERY COMMANDER SERIES has been designed for the protection of life and buildings from the devastating effects of Lithium battery Fires. They offer a safety storage and charging solution for large volume of Lithium-Ion batteries. Lithium-Ion batteries present many risks including thermal runaway caused by a rise in temperature, a shock or faulty manufacture. This can result in the battery igniting and causing a fire that can be extremely difficult to extinguish.

- **FIRE PROTECTION** – Tested to EN14470-1 (part 1) for 90 minutes.
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **VENTILATION** – Fitted as standard with air ventilation ducts, these ducts are heat protected by a thermal fuse that triggers at 75 Degrees C. This seals the unit in the event of an internal battery fire or external building fire. For added ventilation, an external extraction fan can be connected to the top exit vent duct, for forced extraction, this is highly recommended to prevent the build up of heat whilst charging.
- **INTERNAL TEMPERATURE MONITOR** – For safety the cabinet comes as standard with an external temperature display, this gives an accurate internal temperature reading and early warning of a potential issue with a battery over heating.
- **AUTOMATIC DOORS** – Each door is fitted with auto closing and auto locking function so the safe is always securely closed and sealed in the event of a fire.
- **LOCK OPTIONS** – **BS1930K** – Fitted with a high quality key lock supplied with two keys. **BS1930E** – Fitted with an advanced high security electronic lock with clear LED display, dual control, hidden code & scrambled code that can be programmed as standard. The lock can further be upgraded to incorporate multiple user audit trail so that user's usage can be monitored. **BS1930F** – Fitted with an advanced high security touchscreen keypad & fingerprint lock with clear LED display, battery Indicator, internal alarm, multi user codes, dual mode, hidden code and scrambled code that can be programmed as standard with up to 32 fingerprints.
- **MULTIPOINT LOCKING** – Fitted with an advanced multipoint locking system that securely seal the doors. Even in the event of the most severe battery explosion, the doors will remain securely closed.
- **CONSTRUCTION** – Double wall construction with internal fill of our patented Styronite F insulation provide a cabinet of great strength and fire/heat resistance.
- **CHARGING** – Safely charge your Lithium batteries using the fitted power points – 1 x surge protected 8 gang power block, option to add a further 3 power blocks to the pre-wired control boxes.
- **SHELVING** – Supplied with Heavy duty perforated height adjustable shelves capable of carrying 100kg at a time. Fitted with an internal base sump as standard.
- **EARTH LINK** – Fitted and ready to connect to a suitable earth point.
- **WIRING** – Pre-wired for alarm and up to 4 x 8 gang power blocks.
- **PLINTH** – Fitted with a plinth to allow easy movability and removal from the building in the event of a fire situation. The plinth is supplied with a front cover to provide a neat exterior finish.
- **WARNING LABELS** – Fitted with warning labels to in accordance with ISO 3864 and ISO 7010, as well as the European directive 92/58/EEC.

HYPERION SERIES DEMOUNTABLE STRONGROOMS & VAULT DOORS

**Approved for Storage
of Controlled Drugs**

Home Office

THE PHOENIX HYPERION SERIES is designed to meet the exacting standards of customers demanding the best in secure protection. Suitable for use by the banking industry, bullion dealers, jewellers, safety deposit centres and the pharmaceutical industry. We can design a solution to meet customers specific requirements.

- **SECURITY PROTECTION** – Tested to EN1143-1 EFSG, with grading ranging from Grade II through Grade XI, providing Core Drill (CD) and Explosive (EX) protection.
- **CONSTRUCTION** – Composed of precast sections of steel that are typically 500mm wide. The vaults are securely constructed on site either by welding or bolting, for fast and tidy construction. The vaults and doors can be designed and manufactured to suit specific requirements, including to accommodate fork lift trucks. The external fascia is finished with concrete that can be boarded.
- **LOCKING** – Hyperion vaults can be secured with a keylock combination or digital locking, complete with time lock and delay features. The vaults can also be fitted with a grille gate, suitable for daytime use.
- **COLOUR** – The steel internals of the vaults are finished in a high quality, scratch resistant cream coloured primer paint.
- **INSTALLATION** – Phoenix Safe offer a custom design and installation service, allowing us to meet our customers exact requirements, providing expert support at every stage of the process.

PANDORA SERIES SAFETY DEPOSIT LOCKERS

THE PHOENIX PANDORA SERIES is designed to provide deposit solutions for a resurgent security deposit industry. The Pandora series can be scaled to a solution that meets your exact requirements.

Deposit lockers are a popular option for those looking to store valuable, important or expensive small items such as bullion, jewellery, documents such as birth certificates and deeds, or cash and rare coins.

- **SECURITY PROTECTION** – The doors on each locker are tested to meet the Swedish SSF1048-2 certification. The Pandora Series is designed to be accommodated within our Hyperion Demountable strongrooms, which offer a minimum of EN 1143-1 Grade VIII EX CD European test certification.
- **LOCKING** – Each locker has its own unique, mechanical key lock which is exclusive to the user of the locker and is replaced for every successor to ensure complete peace of mind for customers. The Pandora series also offers optional electronic computer-controlled locking with biometric, proximity card or PIN code entry.
- **FINISH** – The columns are finished with attractive solid aluminium forged doors, surrounded by a grey painted steel frame.
- **SPECIAL FEATURES** – Electronically controlled doors allow customers to access their lockers without the need for staff presence. The systems software allows you to manage the installation to Financial Conduct Authority (FCA) guidelines. The system also includes an alarm that will sound if somebody tries to tamper with the units.

SS0800 SERIES VELA DEPOSIT HOME & OFFICE SAFES

SS0801ED

SS0804KD

LED INTERNAL LIGHT
(ED LOCK VERSION ONLY)

SS0802KD

THE PHOENIX VELA DEPOSIT SERIES is designed for use at home or in the office for storage of valuables, cash and important documents. With its high quality key-lock or user friendly electronic lock it is ideal for multiple applications.

- **SECURITY PROTECTION** – Recommended for overnight cash cover of £1,000 cash or £10,000 valuables.*
- **LOCKING** – **SS0800KD** fitted with a high quality key-lock and comes complete with two keys. **SS0800ED** has advanced 'user friendly' electronic locking with high security anti-tamper or bounce solenoid locking system. For added peace of mind these safes are fitted with a key override facility (2 keys supplied).
- **LIGHTING** – The electronic locking versions of the Vela range all come fitted with a bright LED interior light so that contents can easily be seen, even in the most dimly lit cupboards.
- **CONSTRUCTION** – Twin live locking bolts and concealed internal hinges for increased security.
- **DEPOSIT SLOT** – Fitted with a deposit slot with anti-fish baffle plate to ensure that the contents cannot be 'fished out'. Dimension 150 x 12mm.
- **FIXING** – Ready prepared for fixing to the floor or wall, with fixing bolts supplied for brick walls or concrete floors.
- **COLOUR** – Finished in a high quality scratch resistant metallic graphite paint.
- **GDPR** – Maintain GDPR Compliance at home or in the office by keeping your company's vital and important records secure and protected.

PHOENIX SS0991 UNDER COUNTER NOTE DEPOSIT SAFE

The **SS0991KD** is ideal for retail environments where there is a need to safely store notes from the till drawer, without staff having access. The unit is also portable so that it can be unlocked from the counter and taken to the cash office for secure sorting.

- **LOCKING** – Fitted with two key locks each and supplied with two keys. One lock secures the unit to the base tray, the second lock releases the stored notes.
- **DEPOSIT FACILITY** – Note deposit facility (Not suitable for coins).
- **SPECIAL FEATURES** – Under counter mounting plate with key release. Allows unit to be removed from the counter and emptied in a secure cash room.
- **CONSTRUCTION** – Constructed of solid steel plate.
- **FIXING** – Supplied with a fixing plate and fixings to secure under a counter.
- **COLOUR** – Finished in a high quality scratch resistant white paint RAL9003.

SS0991KD

PHOENIX SS0992 CASHIER DAY DEPOSIT SAFE

Front loading day deposit safe for cash management. Ideal for under counter locations, allowing the safe deposit of cash from a till drawer.

- **SECURITY PROTECTION** – Recommended for overnight cash cover of £1,000 cash or £10,000 valuables.
- **LOCKING** – **SS0992KD** – Fitted with a high security double bitted lock supplied with two keys. **SS0992ED** – Fitted with a high security VdS class II electronic lock.
- **DEPOSIT FACILITY** – Fitted with a lockable deposit (2 keys supplied) with Phoenix tilting baffle plate to ensure that the contents cannot be 'fished out'.
- **CONSTRUCTION** – Constructed of 6mm steel plate door and 2mm body.
- **FIXING** – Ready prepared for floor and wall fixing with bolts supplied.
- **COLOUR** – Finished in a high quality scratch resistant metallic graphite paint.
- **GDPR** – Maintain GDPR Compliance at home or in the office by keeping your company's vital and important records secure and protected.

KC0600 SERIES COMMERCIAL KEY CABINETS

smart
LOCK

A series of high quality Key Cabinets ranging from 42 hook up to 600 hook units.

- **LOCKING – KC0600K** – Manufactured with a high quality cylinder lock supplied with 2 keys.
KC0600E – Fitted with a high quality electronic code lock, programmable with users own 4 digit code which can easily be changed when required.
KC0600N – Fitted with the NetCode 1000 lock allowing temporary access to the cabinets via the web-based NetCode Portal. NetCode is activated prior to the lock owner shipping and installing at a remote site. The NetCode Portal allows you to register and set up your account, activate your locks and generate time-sensitive codes. Using time-sensitive codes is a more secure way to grant access as the code will not work outside a designated timeslot. Generated codes can be sent by email or SMS to any email account or mobile phone.
- **SPECIAL FEATURES** – Each unit comes with adjustable hook bars and number labels to suit. The 400 and 600-hook units are double door cabinets.
- **FIXING** – The cabinets have pre-drilled fixing holes for wall mounting.
- **FINISH** – Finished in a high quality durable powder coated finish.

MB0120 SERIES ESTILO LETTER BOXES

MB0121KA

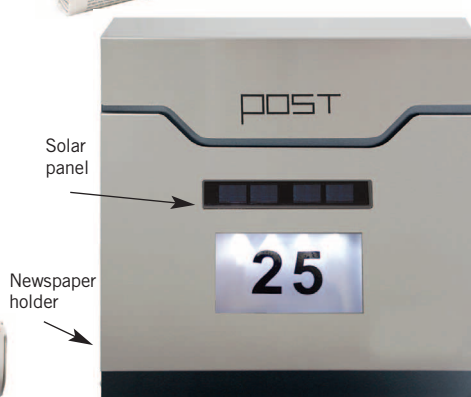

MB0122KA

MB0123KS

MB0124KS

MB0125KS

MB0126KW

THE ESTILO MB0120 SERIES is a range of secure, ultra stylish letter boxes. Durable and attractive, the Estilo range is ideal for the modern home.

- **LOCKING** – Fitted with a high quality key-lock and supplied with 3 keys.
- **FIXING** – Suitable for wall mounting with pre-drilled holes and fixings supplied.
- **CONSTRUCTION** – A heavy duty construction allows a lengthier product lifespan when compared to other thinner-walled letter boxes.
- **SPECIAL FEATURE** – Newspaper holder at the base. MB0125KS has a light panel that illuminates your house number at night (numbers provided), powered by solar energy with rechargeable battery backup.
- **FINISH** – A zinc galvanised coating prevents oxidation of the letter box and gives it a corrosion resistant, weather-proof and rust proof finish.
- **COLOUR** – Finished in a high quality graphite grey powder coating (MB0121KA & MB0122KA), stainless steel (MB0123KS, MB0124KS & MB0125KS) or wood finish (MB0126KW).
